Reteaching and Retesting Recommendations

- Reteach and Retest: All students scoring 59% or below will have the opportunity to retest. When a student retests, an average of the two scores is recorded in the gradebook. The original test score is also recorded in the comments section.
- Retests will be the same form as the original test.
- If less than 70% of your class scores a 70% or higher then it is the expectation that those standards will be retaught using differentiated instruction without compromising the pacing guide.
- Only initial assessment grades are graphed. Retests are not graphed.
- This policy does not apply to Social Studies and Science.
